

ACEC Awards Scholarships to Eight Top Engineering Students

Nicholas True

Jamieson Matthews

Cody Porter

Elise Takebayashi

Jared Rogers

Mike Dube

Adam Morel

James Yokoyama

ACEC's Committee of Fellows has selected eight engineering students to receive 2014 Scholarships.

Nicholas True, who will receive a bachelor's degree in mechanical engineering from the University of Tennessee at Chattanooga, will receive the \$10,000 ACEC Scholar of the Year scholarship.

Jamieson Matthews, who is seeking a master's degree in structural engineering at the Auburn University, will receive the \$7,500 Kennedy/Jenks Consultants Scholarship.

Cody Porter will receive the \$5,000 ACEC Business Insurance Trust Scholarship. Porter is seeking a bachelor's degree in civil engineering at the University of Kansas.

Elise Takebayashi, who will graduate from the University of Southern California with a master's degree in civil engineering, will receive the \$5,000 ACEC Life/Health Trust Scholarship.

The Small Firm Council awarded two \$2,000 scholarships to: Jared Rogers, who will receive a bachelor's degree in architectural engineering from Kansas State University; and Michael Dube, a junior at Northeastern University majoring in civil and environmental engineering.

The Coalition of American Structural Engineers awarded two \$1,500 scholarships to: Adam Morel, who will receive a master's degree in structural engineering from Purdue University; and James Yokoyama, a master's candidate in structural engineering at the University of Hawaii.
